2. REASONS FOR THE ADOPTION OF THE PLAN

2.1. Targets to be achieved by attribution of the Incentive Plan

The adoption of the Incentive Plan pursues the following aims:

- to align the interests of the Beneficiaries with those of the shareholders and the objectives of the Company's Business Plan as a whole, thereby achieving the objectives of creating value in the medium/long-term.

To further strengthen the consistency between the interests of the management and those of all Company and Group stakeholders, the time frame of the Incentive Plan is aligned with that of the 2024-2026 Business Plan;

- to tie the remuneration of Beneficiaries, as persons playing a key role in the achievement of Alkemy's objectives, to the economic results achieved by the Company and the Group.
- to support the attraction, retention and engagement of key resources in line with the business culture, at the same time pursuing an efficient choice relative to the costs generated by this Plan.

2.2. Key variables and performance indicators, considered for the attribution of the Incentive Plan

The assignment of financial instruments is subject to achieving a Retention Objective, identified as the Beneficiary continuing to have a Contract with the Company or with a Group company at the Share Date of Assignment and the following performance objectives:

- Performance Objective linked to achieving consolidated EBITDA levels at Group level, which will be determined in line with the Business Plan;
- ESG Objective, which will be determined with reference to the key variables of the Company's ESG rating and the measurement of Customer Satisfaction and People Engagement.

2.3. Criteria and elements to determine the entity of the compensation based on financial instruments

The Plan has different characteristics depending on the category of Beneficiaries, identified taking into account the different relevance of the role played by each Beneficiary, with a view to increasing the Company's and Group's value in the medium/long-term and the strategic relevance impact of the respective position. More specifically, the Basic Number of Shares will be calculated taking into account the market value of the Company's Shares at the Date of Attribution of the Right, so as to assign a Basic Number of Shares that, at that date is worth a figure falling between the following amounts:

- Executive directors: between Euro 100,000 (one hundred thousand) and Euro 200,000 (two hundred thousand) for each Annual Vesting Period;
- Key Managers: between Euro 50,000.00 (fifty thousand) and Euro 100,000.00 (one hundred thousand) for each Annual Vesting Period;
- Key People: between Euro 10,000 (ten thousand) and Euro 75,000.00 (seventy-five thousand) for each Annual Vesting Period;

Assignment of the Shares is subject to achieving the Plan Objectives, as indicated in the Letter of Attribution and the total number of Shares that can be assigned for all categories of Beneficiaries will be correlated 80% to achievement of the Performance Objective, 5% to achievement of the ESG Objective and 15% to achievement of the Retention Objective.

More specifically, the effective Target Shares to be assigned to each Beneficiary in the event that the Performance Objective is achieved, will be determined using the linear interpolation method, as indicated in the table below:

gross operating profit Objective	
<i>Performance of the individual indicator (in terms of % of the Performance Objective, for each Annual Vesting Period)</i>	Shares to be Assigned per Performance Objective (as a % of the Basic Number of Shares for each Annual Vesting Period)
<i>Less than 70%</i>	0%
<i>Greater than 70% but less than 85%</i>	25% and growing according to the line shown in the diagram below, calculated using the linear interpolation method, as a percentage up to a maximum of 85%
<i>Greater than 85% but less than 100%</i>	40% and growing according to the line shown in the diagram below, calculated using the linear

	interpolation method, as a percentage up to a maximum of 100%
<i>Greater than 100% but less than 125%</i>	100% and growing according to the line shown in the diagram below, calculated using the linear interpolation method, as a percentage up to a maximum of 125%
<i>Greater than or equal to 125%</i>	125%

Failure to achieve the Minimum Performance Objective will prevent the Assignment of Shares correlated to the achievement of the Performance Objective, unless otherwise resolved by the Board of Directors in a more favourable sense for the Beneficiaries.

It is specified that no right shall be due to Beneficiaries in connection with the Target Shares that are not assigned due to failure to achieve all or part of the Performance Objective at the end of each Annual Vesting Period.

The ESG Objective will be considered achieved if at least two of the following indicators are achieved:

- Company's ESG rating: this KPI will be measured with reference to the ESG rating assigned to the Company by a leading ratings company, to be chosen in 2023. The KPI will be considered achieved in the event of an improvement to the score assigned to the Company during the year prior to the start-up of the Plan and the ESG rating achieved with reference to the year ended at 31 December 2026;
- Customer Satisfaction on the basis of the Net Promoter Score: this KPI will be measured on the basis of the average readings taken during the Plan and will be understood as achieved if the value surpasses the value recorded in 2023;
- People engagement on the basis of the internal Net Promoter Score: this KPI will be measured on the basis of the average readings taken during the Plan and will be understood as achieved if the value surpasses the value recorded in 2023.

Shares will be assigned subject to achievement of the Plan Objectives and according to the timing specified in Paragraph 4.2.

3.3. Any procedures in place to review the plans, also in connection with any changes to the basic objectives

If, during the period of Plan validity (i) a public takeover bid or a public bid of exchange should be submitted in regard to the Shares, or (ii) the Shares should be delisted from the Euronext STAR Milan market, regardless of whether or not the Plan Objectives have effectively been achieved, the Date of Attribution of the Grant Shares and Target Shares will be automatically brought forward to (i) the date of notification of the submission of the public takeover or exchange bid or (ii) the start date of revocation of trading of the Shares on the reference market. In this case, the Basic Number of Shares will be determined assuming that the Performance Objective has been achieved 100%.

3.8. The market price recorded at said dates, for the financial instruments on which the plans are based, if traded on regulated markets

Board of Directors will be disclosed in accordance with the terms and conditions of current legislation.

3.9. For plans based on financial instruments traded on regulated markets, the terms and methods with which the issuer, when determining the time-scale for assigning the instruments under the plan, takes into account a possible timing coincidence between: (i) said assignment or any decisions taken regarding this matter by the Remuneration Committee; and (ii) the disclosure of any significant information pursuant to Article 114, paragraph 1; for example, in the case in which such information is: (a) not already published and able to positively impact market prices or (b) already published and able to negatively impact market prices.

The Company will notify the market, in accordance with and pursuant to current provisions of law and regulations, of the resolution whereby the Board of Directors approves the proposal to be submitted to the Shareholders' Meeting.

During approval of the Regulation, the Board of Directors will consider implementing measures to ensure compliance with laws and regulations, together with the transparency, completeness and timeliness of the information to the market.

4. CHARACTERISTICS OF THE INSTRUMENTS ATTRIBUTED

4.1. Description of the ways in which the compensation plan based on financial instruments is structured

The Plan consists of the free attribution to Beneficiaries, by specific resolution passed by the Company's Board of Directors (after consulting with the Remuneration Committee, where applicable) of the Right to Receive Shares free of charge in accordance with the terms and conditions of this Information Document.

For more information, see Paragraphs 2.2, 2.3 and 4.2.

4.2. Indication of the period of effective implementation of the plan, also with reference to any different cycles envisaged

The Plan runs for multiple years and is divided up into three Annual Vesting Periods and one Long-Term Vesting Period, lasting three years, as better described hereto:

1. Annual Vesting Periods: from 1 January 2024 to 31 December 2024, from 1 January 2025 to 31 December 2025 and from 1 January 2026 to 31 December 2026.

At the end of each Annual Vesting Period, the Board of Directors shall verify the achievement of the Performance objectives under the terms to be set out in the Regulation.

2. Long-Term Vesting Period: from 1 January 2024 to 31 December 2026.

At the end of the Long-Term Vesting Period, the Board of Directors shall verify compliance with the Retention Objective and ESG Objective under the terms to be set out in the Regulation.

Once achievement in full or partly of the Performance Objective (as per the table above) and the ESG Objective has been verified, the Target Shares will be Assigned in full for all categories of Beneficiaries, at the Date of Assignment relative to the Long-Term Vesting Period.

Grant Shares are Assigned to entitled Beneficiaries in full at the Date of Assignment relative to the Long-Term Vesting Period.

The Plan is not structured into tranches and no such implementation is envisaged.

4.3. End of plan

The Plan will run from the Date of Approval through to 31 December 2026.

4.4. Maximum number of financial instruments assigned during each tax year in connection with the subjects named or the categories specified

Considering the fact that the maximum number of Shares that can be obtained over the Plan period, upon reaching 100% of the Plan Objectives, shall not exceed the equivalent value of 1,000,000 (one million), the total number of Shares able to be assigned in each tax year, based on the price of the Alkemy share at the date on which this Document is approved (27 March 2023), is 76.923.

4.5. The clauses and terms of plan implementation, specifying if the effective attribution of instruments is subject to the satisfaction of conditions or the achievement of certain performance and other results

4.6. Indication of any availability restrictions applying to the instruments attributed

The Shares assigned under the scope of the Plan are not subject to availability restrictions.

4.7. Description of any termination conditions in connection with the attribution of plans in the event that the recipients should implement hedging transactions to neutralise any bans on selling the financial instruments assigned

The Incentive Plan does not include any termination clauses as described above.

4.8. Description of the effects resulting from termination of an employment contract

If the Contract should cease following a Bad Leaver hypothesis, as defined in the Regulation to be adopted by the Board of Directors before the Date of Assignment or in any case before delivery of the Shares, the Beneficiaries will definitively forfeit all Right to Receive Shares, regardless of whether or not the Plan Objectives are achieved in reference to each Vesting Period completed before termination of the contract and any *pro rata temporis* accrual of Shares.

In the event of termination of Contract following a Good Leaver hypothesis, as defined in the Regulation to be adopted by the Board of Directors before the Date of Assignment or in any case before delivery of the Shares for each Vesting Period, the Beneficiary (or relevant heirs) shall be entitled to receive a *pro rata* quantity according to the period accrued at the date on which the Contract ceases.

Participation in the Incentive Plan does not give rise to any right - nor indeed any expectation of a right - to receive any additional financial instruments from the Company in subsequent years, also on the basis of other incentive plans, nor to the maintenance of the contract of employment with the Company or Group Companies, which will continue to be regulated exclusively by the rules applicable to it under current law.

4.9. Indication of any other causes of Incentive Plan cancellation, if applicable

If, following the coming into force of primary and/or secondary legislation (including welfare and tax) and/or following the issue of official interpretation clarifications and/or following changes in current interpretations connected with applicable rules, the Plan implementation should become more expensive in a manner not currently contemplated by the Company, in terms of tax, welfare or other charges, the Plan may be suspended temporarily, amended or cancelled.

In this case, the Company shall not be held in any way liable for damages, indemnities or other charges of any type in regard to the Beneficiaries and none of the Beneficiaries shall have any claims of the Company in connection with the Rights assigned them to receive Shares free of charge, which have not yet been attributed.

4.10. Reasons for any provision for redemption by the Company of the financial instruments concerned by the Incentive Plan in accordance with Articles 2357 *et seq.* of the Italian Civil Code
